## Career Objective

To contribute to a **growth-focused** organization where I can apply the **skills** I have learned in **web development** and get the **opportunity to show my abilities** through **real-world projects**. I aim to grow as a developer while aligning my efforts with the company's goals.

## Education

Odisha University of Technology and Research, Bhubaneswar.

B. tech (2020-2024)

CGPA: 7.69

Bhubaneswar,  
India

## Skills

- ❖ **Web & Software Development:**
  - Full-stack Web Development, **Front-End:** Proficient in **HTML/CSS**, **Tailwindcss**, **JavaScript** (ES6), **React.js & Bootstrap**.
  - **AI-Powered Design Tools (Like Figma Plugins)**
  - **Back-End:** Skilled in **Node.js**, **Express.js** and Django: experienced with **RESTful APIs**.
  - **Databases:** Hands-on with **MySQL** and **PostgreSQL**.
- ❖ **SAP S/4 HANA, SAP Fiori - Industrial Exposure**
- ❖ **MS Office:** Excelled in Microsoft Word, Microsoft Excel, Microsoft PowerPoint
- ❖ **Software as Service:** VS Code, ADOBE, Multisim, Figma (UI/UX)
- ❖ **Tools & Technologies:** Git-Hub, Postman

## Experience

- **CodeCraft Technologies (Intern)** Jan 2025 – Feb 2025

Built multiple fully responsive and user-centric web applications during my internship using **React.js**, **Tailwind CSS**, and **RESTful APIs**, including a **Live Weather App** with real-time weather data integration via OpenWeatherMap API, and a **Bike Rental Website** featuring a seamless booking system and modern UI animations using AOS. Implemented **secure user authentication with protected routes**, responsive layouts, dark mode, and mobile-optimized navigation. Emphasized component-based architecture, **React Hooks for state management**, and best practices in **UI/UX design**, **asynchronous programming**, and **error handling** for a smooth and engaging user experience.

- **Shopper Stop Ltd. - (CCA & RBI) (3 Months)** March 2025 – May 2025

**Bengaluru | 3 Months | Technologies Used: SAP S/4HANA, SAP Fiori**

Gaining practical exposure to **SAP S/4HANA** and **SAP Fiori** in an **Industrial environment**. Handled inventory control, **ERP management**, stock receiving, and goods inward processes using barcode scanners and **SAP MM transactions**. Managed databases of both **stock** and **employees** through **SAP**. Learned and applied various **SAP T-Codes** used in **industrial and manufacturing workflows**, including the **Goods Receipt process** and stock updates, while developing strong skills in **team collaboration** and system accuracy.

## Featured Projects

- 🚲 **Bike-Rental-App | [Link](#)**

*React.js, Tailwind CSS, AOS & React Icons*

Developed a responsive **Bike Rental Website** using **React.js** and **Tailwind CSS**, incorporating a seamless booking system, interactive **UI** animations with **AOS**, and a mobile-friendly navigation menu. Implemented **dark mode functionality**, optimized user engagement through well-structured sections for **testimonials, services, and pricing**, and ensured a modern, intuitive user experience.

- 🌤️ **Live-Weather-App | [Link](#)**

*React.js, Tailwind CSS, UI/UX, JavaScript & RESTful APIs*

Developed a fully responsive **Weather App** using **React.js**, integrating the **OpenWeatherMap API** to fetch and display **real-time weather data** based on **city input** or user location. Key features include temperature conversion, humidity, visibility, wind direction, and dynamic icons for sunrise/sunset and **weather conditions**. Applied **component-based architecture**, **state management with React hooks**, and **responsive design** with **Tailwind CSS**. Implemented error handling, loading states, and modular helper functions for clean code and better UX.
